Dr. József Bódis, Rector  
University of Pécs  
Pécs, Hungary

Dear Dr. Bódis:

It is my great pleasure to inform you that the Mizuta Scholarship Program will be accepting applications from students of the four countries of the Visegrad group once again this year.

Our aim is to aid students who have a deep interest in Japan, its people and culture, and who are willing to help themselves to realize their dreams.

We will be forwarding the “Terms and Conditions” and “Application” documents to the office responsible for handling international relations at your institution. We look forward to working together to welcome students from your university at the campuses of Josai and Josai International universities.

Allow me to express my gratitude for your continued support of the Mizuta Scholarship Program.

With best regards,

---

Motoyuki ONO, Chancellor ad interim
