

**CALL FOR APPLICATION**

**The University of Pécs calls for applications for participating in the Pannónia Scholarship Program Short-term Mobility for Learning/Research Programme for the 2025/2026 academic year.**

**The object of the call for applications:**

Short-term student mobilities for study/research purposes are student mobilities based on inter-institutional agreements, implemented with the purpose of obtaining credits, and directed to specific target countries, the duration of which is a minimum of 2 days and a maximum of 30 days.

Student mobilities for academic purposes can be implemented in any study area and cycle, including doctoral training. The study period abroad must be part of the student's study program aimed at obtaining a diploma within any study cycle, and the sending institutions must accept it and fully comply with the curriculum structure in terms of the time of student mobility in a proportional manner. The credit acquisition and recognition process must be recorded in the mobility agreement of the student participating in the mobility.

Within the Pannónia Scholarship Programme, students studying abroad also enrol at home, establish active student status, pay any tuition fees at their home institution, and receive their regular scholarship for the duration of their stay abroad.

Duration of study mobility abroad: **minimum 2 days - maximum 30 days**

**Period of study mobility: October 23, 2025 – July 31, 2026**

Currency of the scholarship: **HUF**

Scholarship disbursement: **90% pre-financing – 10% post-financing**

**Pannónia Scholarship Program students studying abroad:**

- spend 2 to 30 days abroad
  - enrol at the home university, establish an active student status, pay any applicable tuition fees to their home university, and receive their grants for the period of studying abroad.
  - do not obtain their degree before ending the mobility.
  - 100% credit recognition (credits earned abroad are 100% accepted by PTE).
  - The program/PTE/Sending Faculty guarantees recognition of the credits earned abroad for the students: the activity carried out during the student's study mobility must be accepted by the sending institution and must fully comply with the curriculum structure, thus avoiding possible slippage, which is one of the biggest deterrents among students.
  - The conclusion of the Support Agreement is only possible if there is a Learning Agreement signed by all three parties. The completion of courses/conference participation/research activities undertaken in the Learning Agreement is binding for both the student and the institutions.
-

- Short-term mobility may include active participation in a conference, participation in a summer/winter school, or attendance in an intensive/blended course.
- Short-term mobility may also include participation in a conference, provided that the student's involvement constitutes an active contribution to the academic content or organization of the event. This means, for example, that the student gives a presentation or conducts a workshop as part of the conference. Mere attendance as a passive participant is not eligible for support. The expectations related to the conference participation, as well as its recognition, must be clearly documented in the curriculum/study plan and included in the Learning Agreement.

We would like to draw your attention to the fact that mobility cannot be started without a signed and faculty-approved Learning Agreement, the decision of the Faculty International Committee, and the signed grant agreement. The university will not transfer funds after the start date of the mobility if the above-mentioned conditions are not met.
