

INVITATION to „SUECH”

SUSTAINABLE ENERGY USE IN CBC AREA OF CROATIA AND HUNGARY project CONFERENCE

8th of December, 2017., Friday 10:00 am
Southern Transdanubian Regional Library and Knowledge Center
7622, Pécs, Universitas u. 2/A, Hungary

The primary goal of this project is to enhance CBC cooperation in sustainable energy by promoting appropriate CBC connections and share knowledge in order to foster sustainable and value-added exploitation of region's natural resources.

Thematic workshops, conferences and energy days will be organized in Hungary and Croatia. Energy plans will be delivered, as well as strategic documents will be elaborated to share best practices in the regions in the field of sustainable energy use.

Program:

09:00 – 10:00 – Registration of the participants

10:00 – 10:05 – Opening ceremony

10:05 – 10:15 – Presentation of the SUECH project - Kinga Dancsházy (Inno-Motive Regional Development Kft.)

10:15 – 10:45 – Adaptation to climate change: sustainable energy solutions for Hungary –
Dr. Viktor Varjú Ph.D. (Hungarian Academy of Science, Research Center for Regional Studies)

10:45 – 11:30 – Keynote Lecture: From small steps to big changes, evolution of climate related projects and the programs in Osijek-Baranja County - Dragan Kovačević (Osijek)
