SOCIAL AND INDIVIDUAL ABILITIES

THE various study and international internship paths gave me the opportunity to gain experience in the planning and implementation of various social, educational and equal opportunities programs.

During my work and studies, I participated primarily in foreign and domestic conferences, seminars and international level meetings, where the main topic was solutions and exchanges of experiences related to the educational and social problems of disadvantaged people, Roma, minorities and immigrants. My activities in associations and foundations (education, advocacy, proposal writing, project management, peer support) helped me gain practice in different situations the ability to use proper communication, express oneself and form opinions. During my work, cooperation and the proper use and application of communication were very

important, as I often acted as a mediator and advisor between partners, as a professional of Roma origin. Currently (since 2007) I work first as an assistant professor, then from 2020 as an assistant professor at the Department of Community and Social Studies of the University of Pécs.

Between 2011 and 2015 I was on maternity leave, my husband and I are raising 2 children (Anna, Matthew).

TECHNICAL SKILLS AND ABILITIES

I know the computer on a user level (Word, excel, powerpoint, outlook express). I have a certificate in 10-finger blinding and typing.

Statistical knowledge: SPSS, Atlasti

DRIVING LICENCE

Type B (2008)
